

Sound Therapy

Changes Lives

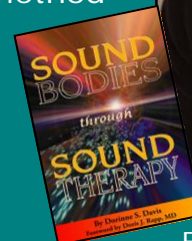

Make Positive Change in Learning Development and Wellness

We take the guesswork out of which Sound Therapy's right for you!

AIT, Tomatis®, and Bio-Acoustics™ will be common terms once you learn how Dorinne Davis, Master Sound Therapist trained in over 20 Sound-Based Therapies, utilizes them in her sequentially developmental Tree of Sound Enhancement Therapy®. Find out how Ms. Davis's proprietary initial testing, The Diagnostic Evaluation for Therapy Protocol (DETP®), identifies the sound therapy which is right for each individual. Understand why The Davis Model of Sound Intervention® is the foundational method for the future of sound-based therapy.

Evaluator: Dorinne Davis
